

# New library for Maxanaedi and SODC

Halfway through 2020 the Zambridge foundation received an unexpected large donation to be used for the establishment of “a small library with good books for young people, divided over all ages, from picture books to books for reading.”

This fantastic offer has been forwarded to the local board in Senanga and it was decided that teachers from both schools would take care of the contents of the bookcase. But first of course a bookcase had to be made. It has taken some time but towards the end of April 2021 we received the first pictures of a well stocked bookcase and of the pupils eagerly using the books.

From Senanga came the following response:

“The school finally has its own library, adding a smile on the face of learners and all those who acquire knowledge. The books were procured in Lusaka by the teachers as this is their area of expertise. Thanks Zambridge Netherlands, thanks to all those that donated to this noble task. Maxanaedi school shall forever remaining indebted.”
